PROJECTS / OPEN-SOURCE

PORTFOLIO | [Link](#)

JavaScript, CSS, HTML, Responsive, Git, Github

My portfolio showcases web development skills, projects, and achievements. It's user-friendly, featuring HTML, CSS, JavaScript, React.js, Bootstrap, and a resume for a comprehensive overview. Designed to create a memorable and informative user experience.

CALCULATOR | [Link](#)

JavaScript, CSS, HTML, Responsive, Git, Github

I created a web calculator project to boost my web development skills. It performs basic arithmetic (addition, subtraction, multiplication, division) and advanced functions (factorial, trigonometric, square, square root, logarithms). A versatile skill-enhancing endeavor

WEATHER APP | [Link](#)

HTML, CSS, Bootstrap, ExpressJs, NodeJs, Responsive, Git, Github

My weather app provides real-time weather information for any location. It uses the Fetch API to access external weather data sources, delivering up-to-the-minute details on temperature, humidity, wind speed, and more. It's a handy tool for staying informed about the latest weather conditions, helping users plan their day with confidence.

CERTIFICATIONS
